

SciLifeLab

Day 2015

APRIL 29
Aula Medica

ART EXHIBITION

Illustrate the complexity of the scientific endeavors taking place at SciLifeLab

Paintings by Ina Schuppe Koistinen

We wish to explore the interplay between art and science and invite you - the SciLifeLab research community - to participate in an art exhibition.

This is an opportunity to make art an integral part of the everyday work environment. You can participate with photographs, paintings or sculptures.

Please let us know what kind of art you wish to display and how it was created.

"Science is beautiful, it has truth, it has drama, and it is full of wonder."

Odra Noel

Send your application with digital pictures of your artwork and information about the physical scale of the objects to susanna.appel@scilifelab.se by April 15, 2015. The artwork will be displayed during the SciLifeLab Day.
